Item #2 Application by Marvin and Carmen Wright for subdivision approval for the Wright Minor Subdivision on the west side of Tchulahoma Road, south of Goodman Road

Mrs. Choat- Cook stated that the applicant is requesting subdivision approval for Wright Minor Lot Subdivision on the west side of Tchulahoma Road, south of Goodman Road. The existing parcel of land encompasses 4.94 acres with an existing home and garage on the land. This application proposes subdividing the land and creating a lot consisting of 2.46 acres of property on the west end of the parcel which can be accessed via a proposed twenty (20) foot ingress/egress shown off of Tchulahoma Road through the existing parcel of land. The remainder of the property is proposed to be left as a parcel with 2.48 acres. To keep the approval clean for future possible sale, staff would like the applicant to identify the front property as lot 1 and the rear as lot 2 with the legal ingress/egress shown. This would ensure that if the family sold to another party in the future for any reason that the title work would be clear. Alderman Flores made the motion to approve the application by Marvin and Carmen Wright. Motion was seconded by Alderman Payne.

Both lots have direct access off of Silo Square Lane South which shows a fifty (50) foot ROW that has already been dedicated to the City. These two lots were approved in the master plan for the loft buildings in 2018 which show directly behind Silo Square commercial area 1 and in front of residential area 2 per the master plan. The applicant needs to show the proper general notes for plat recording and also the standard set backs on the individual lots for referencing purposes. Item #4 Application by Lifestyle Communities, LLC for design review approval for Silo Square Commercial Phase 1, lots 30 and 31

Mrs. Choat-Cook stated that the applicant is requesting design review approval for two (3) story loft buildings on lots 30 and 31 of Silo Square commercial area phase 1. Mrs. Choat-Cook stated that staff has worked with the applicant on the design of the building and is agreeable on the materials and elevations submitted. The landscaping should vary more and include a better mixture of materials. Instead of lining the drives with a single line of Allee Elms, staff would like every other one removed and replaced with a cluster of three white Natchez Crap Myrtles. The applicant should take an evergreen species of ornamental tree to place up against the first floor of the building to soften the brick line. The applicant will need to place a tight row of evergreens around both dumpster area to provide additional screening above and beyond the brick material required to enclose the area. The applicant should take the double row of shrub materials shown on the east side of building 2's parking lot and incorporate that around both west side parking lots to create uniformity. Mrs. Choat-Cook stated that the applicant did not submit a plan for road and parking lot lighting. To keep the flow of Silo Square, the applicant should use either the single head or double head or both options to line the perimeter of the interior road and parking lot. Silo Square Lane South should already have a lighting plan to match with Silo Square Lane North. Mrs. Choat-Cook asked that the applicant be allowed to submit the landscape and lighting revisions administratively since the changes are minor. Approval was recommended by staff with comments.
